

WAMITAB Level 4 Medium Risk Operator Competence for Non-Hazardous Waste Treatment and Transfer

About this qualification

This qualification is part of the CIWM/WAMITAB Operator Competence Scheme and is designed to provide technically competent people with the knowledge and skills to ensure waste sites comply with either:

- Environmental Permitting (England and Wales) Regulations
- The Waste Management Licensing (Amendment) Regulations (Northern Ireland) 2015

Achievement of this qualification demonstrates competence by the learner to manage permitted waste facilities in England, Wales and Northern Ireland for the following site activities:

- Non-hazardous transfer with treatment
- Treatment of land for reclamation, restoration or improvement of land
- Treatment of waste wood for recovery
- Mobile plant for treatment of land for land reclamation, restoration or improvement
- Use of waste to manufacture timber or construction products
- Material Recovery Facilities
- Metal recovery Site (wet scrap e.g. oily metal)
- Other mobile treatment facilities (non-hazardous)

Who is it for?

- Technically competent managers (TCM)
- Consultants
- Site managers and supervisors
- Standard Rules: SR2008No3, SR2008No4, SR2015No6, SR2015No7, SR2008No14, SR2008No15, SR2015No21, SR2015No22, SR2012No13, SR2010No5, SR2010No9, SR2010No10, SR2010No13, SR2015No24, SR2011No4, SR2015No23, SR2008No14, SR2008No15, SR2015No21, SR2015No22, SR2008No21, SR2008No22, SR2015No14, SR2009No7, SR2011No2, SR2015No16, SR2015No39 (England and Wales) and SR2017No1 (Wales only).

What does this qualification cover?

To achieve this qualification, learners will need to complete the six mandatory units:

- Maintain health and safety in the waste and resource management industry (OCS01)
- Manage the environmental impact of work activities (OCS02)
- Manage the movement, sorting and storage of waste (OCS05)
- Manage the reception of non-hazardous waste (OCS12)
- Manage transfer and disposal from non-hazardous waste treatment and recovery operations (OCS20)
- Manage site operations for the treatment of non-hazardous waste (OCS28)

What are the entry requirements?

This qualification is open entry. This means that learners interested in undertaking the WAMITAB Level 4 Medium Risk Operator Competence for Non-Hazardous Waste Treatment and Transfer do not require any other qualifications or levels of attainment. However, learners will need to be employed in a suitable position, or have access to the working environment, as the qualification is assessed 'on the job'.

What job role could this qualification lead to or support?

This qualification is ideal for new or experienced people managing waste and resource management operations that require evidence of their competence, knowledge and skills to ensure waste sites comply with the relevant legislation in England, Wales or Northern Ireland.

What next?

Once you have achieved your Operator Competence qualification, you will be required to pass a Continuing Competence assessment every two years if you wish to act as the recognised technically competent manager (TCM) on a waste site. All TCM's must be able to demonstrate that they have kept their knowledge and skills up to date. (Please note: in Northern Ireland specific Continuing Competence arrangements have still to be determined).

Additional Guidance (Asbestos Storage)

Household, commercial and industrial waste sites authorised to treat non-hazardous waste but only permitted to store asbestos waste (i.e. in permits SR2008No7, SR2008No8, SR2015No11 and SR2015No10) will need MROC1 and HROC4 (15 units) or HROC6 (12 units) to meet the Technically Competent Manager (TCM) requirement for the site. If a TCM on these sites already holds HROC4, they would only require two additional units to be covered for non-hazardous treatment (OCS20 and OCS28).
